

Transfer Credit Policies

In routine matters (when fewer than 15 credits are being transferred from an ATS-accredited graduate school, the courses are less than seven years old and the grades are B- or higher) the Academic Dean will make decisions regarding the acceptance of transfer of credit. Credit for previous course work will be given only when the work is presented as part of the original admissions process and documentation. An official transcript showing the grades received must be on file in the Office of the Registrar before transfer of credits will be considered. An assessment of the course work will be made at the student's request. A transfer evaluation will be completed and the results will be communicated to the student. These results are an estimation of the course work (and its Eden course equivalents) that Eden anticipates will transfer.
